

Submitter: Ian Finn

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB2395

Supporting this bill is simple, with deaths happening every day from overdoses. There is no reason that we should be discouraging people to carry life-saving medication. It does not incentivize drug use - as we see daily, people are using deadly opioids regardless of the legality of their antidotes. We need to encourage everybody to carry narcan, destigmatize its use, and this bill is a necessary first step. Please represent the needs of your constituents and vote yes on this bill!
