Committee: House Committee On Housing and Homelessness

Measure: HB3501

I vehemently oppose this bill, I am a Portland native, I've watched my beloved city decompose before my eyes. The drugs, crime, and trash break my heart. It's past time that all the considerations go to the homeless, drug addicts, criminals, etc, than to the consideration of the population at large. What is the population of homeless, 3-5%? Yet, their needs come leaps and bounds over the 98% of residents. It's alarming this initiative has even been proposed. Please do not let it get out of committee.
