Measure: HB3501

I vehemently oppose this proposal. We will only make the homeless problems worse than they already are. It is time for these people to return to their hometowns they came from. Allowing them to camp wherever allows them to do their drugs and do as they please. After discussing this with some of the homeless, they don't want help just leave them to use their social security spending on drugs and food, then when food money runs out, go to town and get free handouts. They will never be responsible if not forced too.
