

Submitter: Jesse Davidson

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This bill seems like a bandaid to cover up a problem that is only getting worse in Oregon. You need to treat the underlying addiction, mental health and unaffordable housing to address homelessness. This will just end up with used needles in front of public schools and libraries. This bill will ruin the last few remaining public spaces by way of misplaced empathy. And you can be certain corporations and private interests will abuse this loop-hole laden mess of a bill. Please toss this out and propose real solutions such as work and rehabilitation programs for the homeless, or bars on corporate ownership of residential real estate. Please
