**"HB 3127 A STAFF MEASURE SUMMARY  
Senate Committee on Veterans, Emergency Management, Federal and World Affairs"**

I have been concerned with Apple I-phones being manufactured in China and the Samsung phones made in South Korea.

Should all recording devices be "banned" in the workplace? The mobile phones are becoming more sophisticated every day.

Could mobile phones be engineered to provide functions to bypass security firewalls?

I sincerely "Thank" the authors and supporters of [HB 3127 A].
