Committee: House Committee On Housing and Homelessness

Measure: HB3501

This is the most ridiculous pile of garbage I have ever seen. Portland and surrounding cities are already being destroyed by crime perpetrated by homeless people and now you are giving them carte blanche to trash any public property they want to without any repercussions. This idiot law will further degrade the quality of life in Oregon for the law abiding people that live here and will cause loss of property value for not only public lands but surrounding neighborhoods. Why get a job and work to rent or buy a home when the government will let you plop down where you want and then ruin public property.
