

Submitter: Rachel Fisher

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SJR33

Oregonians overwhelmingly support our fundamental rights and freedoms to control our own bodies, lives, and futures without undue political interference and discriminatory government actions. And the polling is clear: Oregon voters understand that our rights are under relentless assault and support these constitutional safeguards that will protect us and the people we love from further attacks. Please vote Yes on SJR 33 for Equal Rights for All.

I have neighbors and family members who would directly benefit from this measure and it is important to me that they not be discriminated against.
