Measure: HB3501

Street camping should be made illegal. This is no way to house individuals with dignity and respect and can create third world conditions. If this bill passes there is no funding to enforce individuals into the sanctioned camps and therefore sends the message the camping continues to be allowed anywhere someone chooses to set up a tent. There are costs associated with living anywhere including trash, sewer, power, etc. People need to be made accountable to the costs that are associated with being an adult. Please do not pass this bill.
