Measure: HB3501

In a time when we have the lowest unemployment rates, the highest minimum wages this is unacceptable. What you tolerate you encourage. I was a teacher for 33 years and this held true in the classroom and with other teachers. If you can't make it in this state with to 50-60k in subsidies why would you tolerate this type of activity. All you need to do is look to our state to the south and if your are prepared to spend 250 million more than you are lacking in expectations and your tolerance of such behavior is only encouraging others to do the same.
