Measure: HB3501

As tax payer we work hard to provide nice humors fir our families in nice neighborhoods. We did not do it overnight it took years with many working even two jobs. Our taxes are out of control and we pay them state property and a sue charge any time you do business with the government.

Penalizing us for others misfortunes which we had nothing to do with is both unfair and a violation of our rights.

We are offering many options to help people through government churches and many other organizations. Some responsibility belongs to them. This does nothing more than muddy the situation that already exist. Not a solution a band aid
