

Submitter: Edward Outlaw
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SJR33

I'm writing to express my endorsement of SJR-33. It is disheartening to see the elimination of fundamental human rights taking place across the country. Including these essential human and civil rights in our state's constitution would provide a sense of protection and assurance to countless individuals in Oregon who have unjustly faced prejudice and bias. I strongly support incorporating the right to abortion, same-sex marriage, and gender-affirming healthcare into Oregon's constitution.
