Measure: HB3501

At what point do we homeowners get looked after. I not only pay all my personal taxes I also pay the corporation tax and I'll I'm getting is a continuation of decline all around me. You are taking an amazing city and turning it into a trash pile. The more you continue to make it amazing to be homeless here the more you bring more homeless people and ruin most people's largest investment which is our homes. I can't believe I am saying this, but it might be time for Oregon to vote some more republicans in. Someone has to clean this up and not make more of a problem. Against what point do the people who pay taxes and work very hard for what they have get some grace to not live around camps and garbage. This is a horrible bill
