Measure: HB3501

I strongly oppose the "Right to Rest" act. There are many private and publicly funded organizations for people who are in need of housing. This act would encourage those who want to live outside of civil and lawful society to continue to live outside of societies order. It would also greatly encourage more of these types of people to come to the state or Oregon and take advantage of our leniency. This act is detrimental to our society, environment, economy, and safety. Our communities cannot afford to have this act passed.
