

Submitter: Jaylee Dubouch

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I understand people need places to go and sleep, but public places where people take our children for walks and want to be able to without being chased down or stepping in a needle , where trash is laid out everywhere ... it's terrible and not how it's supposed to be.. people fear there lives and children's lives and can't even enjoy a simple walk, why trash Medford more than it already is there is enough funding to make a shelter where people can actually be helped and supported in getting jobs and getting in there feet. This place is hard to live in as it is , they need help and resources not a sidewalk to sleep in and or park areas!
