

Submitter: Roger Warren

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2098

Dear Co-chairs McLean and Fredrick, Co-vice-chairs Boshart Davis and Boquist, and committee members,

My name is Roger Warren and I live in Portland. I am 75 and have lived in the same Portland home for 45 years.

I support the building of the bridge but oppose the -2 amendment to HB 2098. I would support a future amendment (like the -3) that is aligned with the right-sized bridge, right now. It is important to me to limit freeway expansions. I prefer smaller bridge designs that are less polluting and financially responsible.

Thank you for working on this difficult project. I know you will make decisions that will benefit your grandchildren.
