

Submitter: E O

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

We are tired of these RV's and RATS that have increased 300 fold since the homeless population boomed and took over our streets, parks, etc. This city and the surrounding areas have been overrun with walking zombies. I don't even see people panhandling anymore. They are comfortable living the way they live. I don't feel safe. My young children have seen naked people and insane men and women with axes and swords and so many drugs as we drive down the street. How have you allowed this to continue as it has? Now you want to make it legal? This is enabling in the truest sense of the word! You have a responsibility and you are not helping anyone by allowing people to give in squalor and broke down tents/RV's and take over our sidewalks. Please do the right thing and make this illegal to save our city/state. We are all suffering for the choices of some. And yes they are choices for we have encouraged and enabled them and they have grown comfortable. The county has even supplied the tents. We have become gothem city and no one is coming to our rescue especially not the elected officials. Shame on you all! I have no faith in this city getting better.
