Committee: House Committee On Housing and Homelessness

Measure: HB3501

I absolutely appose House Bill 3501. This Bill does not solve the homeless issue in Oregon, little alone in Beaverton, where my family and friends live. The representatives forwarding this Bill, are not solving the homeless issue but creating an environment that supporting the behavior that allow for this type of issue to exponentially increase to our own neighborhoods. This is a direct endangerment to children and families, as the majority of homeless are often under the influence of drugs and have a criminal past.
