Measure: HB2098

I support replacing this bridge, but oppose HB 2098 -2, because this legislation as currently written jeopardizes a right-sized Bridge Replacement, right now. I support the -3 Amendment (and the policy recommendations offered by the Just Crossing Alliance) that ensures this replacement bridge project moves forward smoothly with a right-sized design, explicit pro-labor provisions, financial guardrails, and major investments in mass transit.

Let's just build as much bridge as we need, not far far more! We've got other stuff to do with those tax dollars!

Thanks very much.
