Committee: House Committee On Housing and Homelessness

Measure: HB3501

I am writing you all today as a law abiding, tax paying resident of Oregon, in complete opposition of this measure. This measure does absolutely nothing to correct the homeless epidemic when are in. It is complete common sense that this measure will only keep making the problem worse. Legalize drugs, legalize homeless camps, we might as well change the state name to California. When are you going to get a clue, and start working for you constituents? This is not what the general voting public of Oregon wants. We citizens will not forget about all of these ludacris, and complete moronic bills that you the legislation keeps trying to put through. Quit wasting our tax payer dollars, and time, and how about you all focus on something that is actually good, and productive for our state?
