Measure: HB3501

This bill should absolutely not be passed. Homeless encampments have destroyed our state in the last 3 years. Property crime has gone through the roof. Public illegal drug use and addiction has gone through the roof.

Our cities which used to be some of the cleanest and safest in the US are now disgusting and dangerous. Contributing members of our state have been driven out of their homes and businesses have been forced to close due to the lack of enforcement.

Start enforcing laws and locking up criminals and your need for "camping" in public places will go away.
