I 100% Oppose HB2002/2002A bill. Between the ages of 10 to 18 A child does not know what they want. That choice should be between a child and parents. The state can't even take care of kids that they steal from parents in DHS. So how can they take care of your child?

A 10, 11, 12, 13, 14, 15, 16 year old should not be having sex!!!!!! We know at some point they do. But the last thing a 10/11/12/13 year old is thinking is sex. Most sex predators get away With this behavior because they haven't even started their monthly cycle. They know a child won't be able to get pregnant. But some young girls do start their Monthly cycle At 10.

14 15 16 years old is a little different. Majority here have started their cycle in which they can get pregnant. So these rapists need a way out Without getting in trouble. By allowing a child to be seen By health care Without a parent So no questions are asked. It's child predators, child rapists that are thinking about sex. And by allowing them to have an abortion without a parent consent you're saying that you do not protect that child. Because only a mother would protect that child. We all know children run away from home sneak out. Some get kidnapped put into sex slavery. Sex Trafficked Planned Parenthood would say nothing. They wouldn't even ask questions. They wouldn't even care. And I believe that's why this bill wants passed by every Democrat.

How much do you really think a child knows about gender/identity? Nothing they know absolutely nothing besides what a Indoctrinate Agenda pushing teachers/Parents is wanting them to think. What content creators are telling them. But allowing a 10 to 18 year old have any type of surgery Before their own hormones should be wrong on all levels. They do not understand the consequences from the actions. Mutilate - inflict serious damage on Their body where they will never be able to produce children. I think we have serious Problems in America currently. And I believe they're using gender, Pronouns and identity as trying to play pretend To escape the thing that was covid 19. Were the government Locked people in their homes unless they had an essential job. People went crazy. And after the 2 years of crazy minds going we developed this mental illness called gender identity and the government is running with it.
