

Submitter: Patience Bingham

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2098

I oppose HB 2098 -2.

HB 2098 -2 ignores the main priorities for a right-sized I-5 bridge – that's replaced right now. It spends way beyond our means by robbing the general fund, ignores climate goals, and has big corporate contractor giveaways.

The -3 amendment from Representative Pham's office helps address all of these concerns, and I urge the committee to consider it as soon as possible
