Measure: HB2098

I support replacing this bridge, but oppose HB 2098 -2, because this legislation as currently written jeopardizes a right-sized Bridge Replacement, right now. I support the -3 Amendment (and the policy recommendations offered by the Just Crossing Alliance) that ensures this replacement bridge project moves forward smoothly with a right-sized design, explicit pro-labor provisions, financial guardrails, and major investments in mass transit.

I don't want my children to be saddled with ODOT's debts. They are living in a fantasy future where we're somehow still alive and yet dominated with cars.
