On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I strongly oppose this bill. It would just enable people more who do not want to be a responsible citizen of our community. I also believe this is just a bandaid instead of getting to the real reason for the large population of homeless, drug addicts and mentally ill people. We need to find a way to help those that truly want to become part of the community and hold those who don't responsible for the damage and destruction they are do doing to our community. Sincerely Roger Parker
