Committee: House Committee On Housing and Homelessness

Measure: HB3501

Thank you for supporting the Right to Rest measure.

These are uncomfortable times, even when you have job security. Those that oppose this measure likely can only see short-sightedness of a fluid population in-crisis and can't see what it is like not to feel like they have any choice. To have housing stability allows you to focus on getting needed help-- instead of simply starting alive.

Please support the Right to Rest, until there are more opportunities to offer people more than survival, so they earn a reasonable wage and be respected again. ??

Thank you!
