

Submitter: Megan Davis

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2410

The City of Ontario desperately needs more activities for the citizens of Ontario to do that are safe and encourage socialization and recreation. Bringing back the pool would fill this need. I believe bringing back the pool would open the door to greater economic growth. The opportunities the pool could bring are truly endless. I would love the pool to just be the beginning of something great. Having something like the YMCA would be amazing for the community of Ontario and I believe that bringing back the pool would help make this a possibility.
