Measure: HB2410

As a life long resident of Ontario, I had never considered my little town to be in despair or a state of emergency. As I have gotten older, it has increasingly come to my attention that we are in fact a town in despair. And as of late, with drugs and homelessness running rampant, we are a town in a state of emergency. Our people deserve nice things. Our kids deserve a safe town, with things for them to do and a place for them to go. They really deserve nice things more than anyone. This money could really change the lives in this town for the better.
