

Submitter: Larry Osborne

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I strongly oppose HB3501 and urge the committee to NOT support passage. I'm not unsympathetic to the homeless situation in Oregon, and I do support the Governor's efforts to help alleviate the problem. I also support the efforts of individual counties and communities across our state in addressing the issue. HB3501 will not do anything to help solve the problem and will only exacerbate the problem and increase the tension between the homeless community and those citizens who are having their rights infringed upon with efforts like those in this bill. Just the introduction of the bill has received nationwide attention as another far-left, activist effort. Please bring sanity to the hearing and reject HB3501.
