Measure: HB3501

This bill is beyond insane. Again, giving special rights to people who do not contribute anything positive to society except filthy, crime and drugs. Not to mention the out of control violence that is more prevalent with this group. Again another slap in the face to families, tax payers and workers who actually contribute positive to society. They pay no taxes but the home owners are told to shut up and pay our taxes. There is nothing to show any accountability to the campers. What about the rights of legit home owners and renters. Don't they have a right to a clean and safe neighborhood? You will have every homeless person coming to Oregon. If this passes that will be the final straw and our family will leave the state and take our high taxes with us. This will hurt property values. The so called homeless again can do as they please. If a homeowner builds something without a permit the city goes right at them with full force. The squatters can do as they please. They will ruin our parks. I can not believe how two radical politicians got into office. Between this and the ridiculous 1k a month to homeless. This is beyond insane. And the audacity that gives them the right to sue if "harassed". How about suing any politician that votes yes on this? Funny, I'm sure the two sponsors wouldn't want a camp and the lawlessness by their house. Can't wait for their terms to be up.
