On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I strongly oppose this. You can't openly have camping in any public right of way. They would need to pay land taxes just like the rest of us. The theft, open air drug markets not to mention private property is private for a reason so you can't allow camping on private property as well. The public space is paid for by people who are working (taxes) and land owners not those that aren't working and living for free. Get a clue Oregon let's stop this madness and get our State back in the right direction.
