Measure: HB3501

I am writing in strong opposition to this proposed bill HB 3501. Listen to your taxpayers who are outraged by the incompetent leadership in Oregon! Leaders must have the tough role of saying enough is enough and it's about time you found your voice! The current homeless situation has grown exponentially and would consider Oregon to be the nastiest state to live in the USA. It literally looks as though we have fleas and maggots crawling all over our public lands and sidewalks. Rubbish scattered everywhere, blankets and clothing left in the roadways, feces on the sidewalks and public parks, hypodermic needles. The derelict drug addicted homeless population is a genuine public health concern for all. Get your act together and criminalize drugs and quite giving to the homeless and those that don't want to better themselves!
