

Submitter: Todd Jay Vaughn
On Behalf Of: Tiller
Committee: Senate Committee On Judiciary
Measure: HB3443

I am a landlord and I believe in my right to terminate a rental agreement with anyone for any reason at any time.

This should be a basic right of ownership. To do what I choose with what I have worked for and now own, is a fundamental "human right" in my mind, and I do not believe that anyone has the right to tell me different... or to legally force me to rent to someone that I do not want on my property. In my mind, "ownership" equals "control", therefore, this law would take ownership of my property without compensation. Whoever wrote this Bill is a would-be thief, and should be incarcerated.
