

Submitter: Kelly McDonald

On Behalf Of: McMinnville 3rd Street Improvement Project

Committee: Joint Committee On Ways and Means Subcommittee On Capital Construction

Measure: HB5030

I ask the Committee to approve the \$4,000,000 request from the City of McMinnville for the \$11,500,000 total project cost for the Downtown 3rd Street Improvement Project. Our City staff, officials and the citizens have been working on this desperately needed project for more than 20 years. As identified in the 2000 Downtown Improvement Plan and through the formation of the Urban Renewal District in 2013, McMinnville has committed significant resources in time and dollars to this plan. Countless hours have been spent in community engagement workshops and consultant design. We are currently evaluating engineering firms through our RFQ process for 30% construction documents.

Please support the \$4,000,000 allocation request to keep this project moving forward.
Thank you. Kelly McDonald
