Committee: Joint Committee On Ways and Means Subcommittee On Capital
Construction

Measure: HB5030

I wish to testify in support of the McMinnville Third Street Improvement Project. The city and the Committee of which I am a member have been working on this as a community for the past 20 years, with the adoption of our Downtown Improvement Plan in 2000, the establishment of the Urban Renewal District in 2013, and the past four years of visioning and concept designs. This project is of vital importance to the economic development and efficient transportation through our downtown.
