

Submitter: Linda Kelley

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

Please support full funding for climate legislation to address the threat to our and our children's health and safety, as well as to leverage newly available federal funding. Be sure to pass SB 530, SB 522 and HB 2998 to strengthen and modernize Oregon's climate goals, create jobs, and store more carbon on Oregon's working and natural lands.

These bills offer important pathways to support our rural communities who work on our lands to become more resilient while helping all of us mitigate the effects of a changing climate. thank you for your ongoing work.
