Measure: HB2756

#### HB 2756 Testimony

Dear Members of the Joint Committee on Transportation

Hall Blvd in Tigard needs attention and help. Although it is technically a state highway (OR 141 - there is no signage) it appears as and functions as a Tigard city street, except that it has not received the upgrades and expenditures that it should have had. As a result it does not meet Tigard neighborhood, pedestrian, and cycling safety needs. It needs an ODOT commitment of funds to take care of deferred work, and then have it transferred to Tigard as a city street. I am proud to represent Tigard on Metro and agree, with the City, that HB 2756 deserves passage now.
