

Submitter: Trish Kentner Backsen

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB85

I oppose further regulation of the livestock feeding operations. Oregon already has one of the most regulated programs in the country. By adding more and more regulations, you are making it harder for farmers and ranchers to make a living. You are also going to cause more disruption in the food supply and much higher prices at the grocery store.

NO on SB 85
