On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

Dear Committee on Behavioral Health and Health Care Committee Members:

I'm writing to you as the parent of an amazing 6 year old who happens to be hard of hearing. Amelia's hearing aids have made a huge difference in her life. They've help her learn to speak clearly with adults and peers and are why she can participate and thrive in a classroom setting.

All children deserve a chance to thrive and the idea that some children won't have that opportunity because of cost should sicken us all. Please give children access to the tools and equipment they need.

Sincerely,
Elizabeth Beach
