

Submitter: Mike Perham

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2756

Hall Blvd is the only convenient way for many neighborhoods to get to the local library, connect to the Fanno Creek Trail, the local climbing gym and many other destinations. It needs local control so it can be redeveloped to be multi-modal safe for all ages. ODOT has proven over and over that they cannot build safe, local streets.
