

Submitter: Merrilee Alexander
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2572

HB is an outright attack on Oregonians from all walks of life. Law biding Oregonians are being discriminated against. They're attacked by law makers that are doing all they can to decimate the law of the land.....the constitution. All the while Oregon is falling apart with fentanyl deaths, (which far outweigh gun deaths) homeless taking over our neighborhoods and streets, criminals being released without having to pay bail along with no charges being filed. Business and residents are leaving Oregon specifically Portland and Eugene in droves. We're not safe and it has zero to do with guns. Criminals will always get guns. Period. As a law abiding citizen I have a right to defend myself and own guns. I have a right to buy a gun. I have a right to enjoy the sport. I'll just ad this: some one very near and dear to me was accidentally killed by a gun. This has not and will not taint my beliefs in the 2A. I'll continue to advocate for my right to live by the constitution.... all amendments.
