

Submitter: Anne-Marie Eklund

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB85

I am writing in support of the Factory Farm Moratorium bill. The very large factory farms are detrimental to small farmers and residents living near them due to the degradation of water and air quality emitted by these farms. In addition, these factory farms are large polluters of greenhouse gases. Finally, the farms often have cruel and unhealthy living conditions for the confined animals. It is time for us to be more humane to the animals that help sustain us. More work needs to be done to regulate these operations. Thank you.
