Measure: HB2572

Good Day fellow Oregonians

This proposed legislation seems to be another papercut against gun owners. My whole family does not support it. I read the support testimony, and all the Oregonians who support this legislation also supports legislation that is against law abiding gun ownership. Making laws that make law abiding citizens into criminals is abhorrent to our society. I will not comply happily.

Have a nice day and vote no on this bill that if passed will be in the court system wasting my (Oregonians) money.
