

As a responsible gun owner. Life long oregon resident , parent of an grade school child & grand parent of a kindergartener . I strongly Oppose HB 2572 as it only affects legal responsible gun owners , low income people & minorities through the increased costs , class's needed , additional waiting periods, possibility of racial /sexual discrimination by law enforcement though denial of permit & the 2nd amendment right for any legal, responsible citizen to legally own a firearm . This purposed bill does absolutely nothing to stop a criminal from committing a crime with a firearm or from stealing a firearm to commit a crime & only impedes your legal right to defend yourself , your family & in the case of a hostile shooter situation ,everyone around you . Which in many ,many situations has stopped a murderer using a firearm . Case in point Clackamas mall shooting ,a good

guy with a firearm stopped the shooter .
