On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB2572

You have to stop your assault on Oregon gun owners. We are peaceful, stay in your lane kinda folks.

You are no longer traveling in your lane. You've broken your oath of office, trampled the Constitution both the Oregonian and the United States of America's Constitution. You have launched an all out assault on innocent gun owners protecting what they've earned, loved, grown, and lived for.

Meanwhile your destroying Oregon and Oregonians one more law passed by one more just one more and another regulation and measure passed and shoved down our throats.

Decriminalizing the ones we want stricter. Defunding the people we want funded.

Doing absolutely everything backwards to what will work causing chaos in our hometowns. The same hometowns that used to be safe, now over run with drug addiction and homeless that fuels thefts to keep it all alive and well. All

Decriminalized, DA's not even prosecuting those crimes. Officers not wanting to quote "waste their time cause the DA wont do anything " end quote. Thanks to your last brilliant ideas are we building back better. I think not. Now onto this new idea to fix it all. Gun control to protect who from who. Kids at school? I'm all for it! But what about the out of control thieves and addicts you've created? Should be disarm and forget about them? I think not!

No gun control

No more regulation

No more laws passed until you fix what you've broke!

Go back to the drawing board of your previous bad drawings and re draw.
