

Submitter: NALY CHOI

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

I support HB 2994. As a mother of a child with global developmental delays, I know first hand of the significant amount of care that is required for my child starting at a very early age. I am doing all that I can to provide support as early as possible for my child to succeed in life. Providing medical devices, such as hearing aids, is crucial and insurance coverage is absolutely necessary. This will not only help my child and my family, but helps society as a whole to prevent more healthcare costs down the line. Please consider HB 2994 to prevent any child from not receiving a medical device that is life changing.
