

Submitter: Nolan Howell

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2572

As a US Army veteran who calls Oregon his home state, I oppose this bill. This bill is aimed to protect our citizens of the state of Oregon, yet indirectly goes against the constitution of United States, and removes the checks and balances between the people and the government. The people need the right to defend themselves from corrupt government. If this bill is passed, it will just cost the people of OR money, taking it to court to prove that it is unconstitutional and wasting the peoples money and cost the state time and money!
