

Submitter: Jeremy Wilkins

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2572

This will automatically make us criminals. Training is essential for a responsible gun owner. I want my children to learn how to properly handle and use a firearm. Getting together in a group setting for training does not make them malicious. As gun owners, we who follow the laws and are responsible should not be punished. We have had multiple riots in Oregon with people destroying property and hurting people without any repercussions. Thank you for your time. And please take the time to really understand the negative impacts this bill would have on responsible law abiding gun owners.
