

Submitter: Donal Myron
On Behalf Of:
Committee: House Committee On Revenue
Measure: SB1012

Hello- Although I support this, the bill should be amended to include homesteads that were rebuilt with a square footage that exceeds the original square footage. The tax calculation could be limited to the original square footage while exempting the excess square footage. As currently written, I suspect this bill would impact only a small percentage of rebuilt homesteads.

Thank you for your consideration,

Don Myron
