

Submitter: Christian Powell

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

I As someone who has worked many facets of the field in the over 10 years I've been blessed to be a part of. I can say with absolute certainty, that DSPs do not get paid enough for the multiple facets included in day to day life of DD services DSPs. It's hard to understand how in depth it is, if you have not worked the field, we provide services you would expect from nurses, psychologist, peace keepers, medical technicians, ect ect. As well as a confidant and voice of advocacy, fun and help, for those supported. Please consider helping DSPs reach their truly deserved wages, for all the support they provide in many ways. Thank you for your time, and consideration in this matter.
