

Submitter: Zelky Smitts

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB3258

To Whom it Concerns,

Please oppose the PDMP here in Oregon. Pain patients are struggling enough without adding another enormous weight to the immense challenges we face in getting pain treatment. The PDMP will only make things worse. Pain patients have become victims of the war on drugs. There are so many rules, regulations that have turned pain care into a disaster, it has ended up harming people who are seeking pain care. It has become extremely difficult to get pain treated. Doctors are already being put through extreme regulation to treat pain patients.

Please don't make it worse.
